

4 Courses

Think Again I: How to Understand Arguments

Think Again II: How to Reason Deductively

Think Again III: How to Reason Inductively

Think Again IV: How to Avoid Fallacies

Mar 6, 2021

Mahmoud Elsherif

has successfully completed the online, non-credit Specialization

Introduction to Logic and Critical Thinking

In this specialization, learners improved their ability to identify, analyze, and evaluate arguments by other people and also to construct arguments of their own. They learned general standards of good reasoning and mastered tools to improve their critical thinking skills. They also learned how to apply deductive and inductive standards for assessing arguments and how to detect and avoid fallacies.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
